INFORMATION

With PARTsolutions you are able to access a large range of standard and supplier parts as CAD system independent 2D and 3D geometry. Independent means the models are converted natively in practically every CAD system. When using CATIA for example, a real CATIA model will be generated from our model and can of course be edited and manipulated for downstream applications. Interfaces are available for all common CAD systems (see list below).

Integrations also exist to the most notable ERP/PDM systems (see list below).

Mit PARTsolutions steht Ihnen eine grosse Anzahl Normteile und Zukaufteile als CAD unabhängige 3D und 2D Geometrie zur Verfügung. Unabhängig heisst, sie können in jedes CADSystem nativ übertragen werden. Der User von PARTsolutions erhält so in Verbindung mit z.B. CATIA ein echtes CATIA-Modell, das in seiner Konstruktion dann selbstverständlich weitermodelliert werden kann. Schnittstellen für jedes gängige CAD System sind verfügbar (siehe Liste unten).

In weiteren Ausbaustufen sind auch Anbindungen an ERP/PDM Systeme möglich (siehe Liste unten).

Avec PARTsolutions vous avez à votre disposition un grand nombre de composants normalisés et de pièces d'achat comme géométrie CAO indépendante du 2D et 3D. Indépendant veut dire qu'ils peuvent être transmis nativement dans presque tous les système CAO. Ainsi l'utilisateur de PARTsolutions obtient une liaison avec un vrai modèle CATIA, en prenant CATIA comme exemple, qui peut être naturellement continuellement modélisé dans sa construction. Des interfaces pour tous les systèmes CAO courants sont disponibles (voir la liste ci-dessous).

Dans d'autres degrés d'extension, des liaisons avec des systèmes ERP/PDM sont aussi possibles (voir la liste ci-dessous).

Con PARTsolutions è possibile accedere a una grande quantità di parti standard e commerciali sotto forma di geometria 2D e 3D indipendente dal sistema CAD. Ciò significa che i modelli vengono convertiti nel formato nativo di praticamente tutti i sistemi CAD in commercio. Usando per esempio CATIA, viene generato un vero modello CATIA che può essere modificato e manipolato per successivi utilizzi. Le interfacce CAD disponibili sono elencate qui sotto.

Esistono anche integrazioni coi principali sistemi ERP/PDM (vedere la lista qui sotto).

Con PARTsolutions tiene a su disposición un grán número de estándares y normas de la industria como un sistema CAD de geometría independiente 2D y 3D. Independiente significa que se pueden transmitir de forma nativa a prácticamente todos los sistemas CAD. El usuario de PARTsolutions posee de este modo en el uso por ejemplo de CATIA un modelo original de CATIA, en el cual por supuesto se puede seguir modelando. Interfaces para cada sistema CAD disponible son disponibles (ver lista abajo).

También son posibles integraciones para sistemas ERP/PDM (ver lista abajo)

Native CAD formats:

ADEM, AllPlan, AutoCad, Bihler CAT, Cadceus, Caddy, CADISON, Cadkey, Cadra, Catia, CCD/ProfCADAM, Cimatron, Fides, Helix, HiCAD, Ideas, Inventor, Logocad Triga, Mastercam, Materialise, Mechanical Desktop, Medusa, MegaCAD, Microstation, One Space Designer, Parasolid, ProE, SolidDesigner, SolidEdge, SolidWorks, Swiss Precision, Thinkdesign, TopSolid, Unigraphics, Varimetrix, Visi Series.

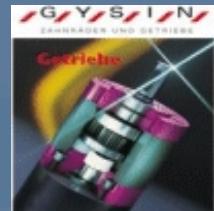

Neutral CAD formats:

SAT, STEP, IGES, DXF.

ERP/PDM Systeme:

SAP, Teamcenter, smarteam, Windchill, Insight, Compass, Gain, ProCad, Eigner. Weitere Schnittstellen auf Anfrage.
